EXPERIENCE

Business Intelligence Intern | Oregon Beverage Services | Salem, OR | Jun 2023 - Aug 2025

- Developed Excel-based labor forecasting models using historical event data, reducing idle staff time by 20% and optimizing resource allocation across 150+ annual events
- Analyzed and reported on beverage sales, inventory, and revenue across 10+ concurrent weekly events, improving demand forecasting and repurchasing accuracy
- Assisted in the design and implementation of a centralized database integrating data from four enterprise platforms tripling report generation speed, maintained pipelines, and performed ad-hoc SQL queries for management

Analyst | O'Neill Student Investment Fund | Salem, OR | Aug 2025 - May 2026

- Analyze financial data, build and evaluate financial models (Modern Portfolio Theory, CAPM, Fama French) and research markets to guide investment decisions in a \$800,000+ fund providing scholarships to AGSM students
- Regularly stay on top of financial events, geopolitical tensions, and general current events as it pertains to the investment portfolio to make relevant and informed choices

Data Consultant | Western Oregon University | Monmouth, OR | Mar - May 2024

- Led a team of 5 in the end-to-end development of a university-wide student demographics dashboard, collaborating with faculty and administrators to gather requirements, define key features, and align deliverables with institutional needs, improving data accessibility across programs
- Gathered, processed and visualized 10 years of enrollment and demographic data using Python

PROJECTS

Not-for-Profit Strategy Consulting | Cycle Oregon | Portland, OR | Jan - Apr 2025

- Analyzed 5 years of rider data and 1,100+ survey responses; crafted alumni engagement strategies projected to increase repeat participation by >10%
- Benchmarked Cycle Oregon's events against 5 peer organizations interviewed to identify improvements
- Identified \$500K+ in grant opportunities and developed a grant-readiness checklist now used by client
- Delivered a 40-page recommendations report and presented a data-driven strategic roadmap to the Board

SKILLS

Programming & Data Analysis: Python (pandas, NumPy), R (tidyverse, ggplot2), SQL

Data Visualization & BI Tools: Tableau, Power BI, Excel (advanced formulas, pivot tables, macros)

Analytics & Statistics: JASP, regression modeling, hypothesis testing, data cleaning & transformation

Project & Team Skills: Project management (Agile/Scrum), cross-functional collaboration, presenting insights
